2. This application is in condition for allowance except the following formal matter.

### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sam Huang (reg. 48,430) on September 15, 2005.

The application has been amended as follows:

- i. In claim 12, replace lines 5 – 6 with "a redundant memory cell array coupled with the regular memory cell array."
- ii. **Claims 6 – 11 are further canceled** for being drawn to non-elected invention. Election was made without traverse in the Response to the Election/Restriction requirement filed March 18, 2005. Applicants have the right to file divisional application on the subject matter covered by these claims.

### ***Allowable Subject Matter***

4. Claims 3 – 5 and 12 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior arts fail to teach or suggest a memory circuit comprising, in combination:

a regular memory cell array having a plurality of redundant replacement units;  
a redundant memory cell array coupled with the regular memory cell array;  
a redundant replacement memory for storing data on the redundant replacement unit having the failed portion in the regular memory cell array; and

pre-charge circuit having pre-charge switches for redundant replacement units and the redundant memory cell array respectively, wherein

depending on the data stored in the redundant replacement memory, the redundant replacement unit having the failed portion in the regular memory cell array is or is not replaced with the redundant memory cell array,

if a defect does not exist in the regular memory cell array, the pre-charge switches of the plurality of redundant replacement units are enable, and the pre-charge switch of the redundant memory cell array is not enabled, and

if a defect exists in the regular memory cell array, the pre-charge switch of the redundant replacement unit having the defect is disabled and the pre-charge switches of the remaining redundant replacement units and the redundant memory cell array are enabled.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
